Like I Never Loved Before

Phil Vassar

I guess, I gave myself to someone
Maybe a time or two
Well, I tried, I went through the motions
What was I supposed to do
Well, I spun my wheels
I wasted so much time
And then with you
I finally got it right
And it's like I never loved before
Like I never saw the sun
Or felt the rainfall on my face
And it's like, like it's never ever been
Can't imagine life without you anymore
It feels just like I never loved before
Well, I never talked about forever
Now it's not long enough
Well, who's that guy looking in the mirror
'Cause it's not the man I was
Well, I only know
I tremble when we kiss
I'm making up for
Everything I missed
Well, it's like I never loved before
Like I never saw the sun
Or felt the rainfall on my face
And it's like, like it's never ever been
Can't imagine life without you anymore
It feels just like I never loved before
And I ran around in circles
I never knew
I was only getting ready for you
And it's like, like I never loved before
Like I never saw the sun
Or felt the rainfall on my face
And it's like, like it's never ever been
Can't imagine life without you anymore
It feels just like I never loved before
