Definition

Wide Eye Panic

To feel it means nothing.
Derived from happiness: true lies.
Conceived in your passion.
My life won't deviate.
You?ll see that I climbed too far to fall back down.
Now I tried too hard to fail myself.
I've failed everyone else.

Who knows it?
You've been there.
It's a part of your ignorance.
So why then these questions?
The writing against the wall.
Proclaim that I climbed too far to fall back down.
And I tried too hard to fail myself.
I've failed everyone else.

Oh shit, done it again!
Wasted all that I am and more.
Goddamn people shunned from the limelight must muscle inch from my past time.
Same people shunned from the limelight in time will do the same to you

Even though there's much to find.
Not much left for you to see.
Can't we all just get along with destiny?

Take a look at yourself, you tell me what it is you thought that you'd be here when?.
you take a look at yourself, you tell me what it is you thought that you'd be here when?.
you take a look at yourself, you tell me what it is you thought that you'd be here when?.
you take a look at yourself, you tell me what's staring back in the mirror.
Staring back in the mirror.
I swear it's just yourself.

Oh shit, done it again!
Wasted all that I am and more.
Goddamn people shunned from the limelight must muscle inch from my past time.
Same people shunned from the limelight in time will do the same to you
Don't let them do the same to you.

Just dig, dig, dig, dig yourself a?.

Dig, dig, dig, dig yourself a hole.
