

Come Clean

[Greg Laswell](#)

All in a day, all in a day, I am without you
Just yesterday I was on top of my game with you
Then I should say, when you were away I think I knew
But I refused, I refused to see Why did you never come clean with me?
Why did you never come clean with me? In the moment you've erased
My ability to hate
You were at it again Welcome to my new place
Take advantage of my grace
We're at it again, my love This is not so innocent
This is not what I had planned
I think I should be going Why did you never come clean with me?
Why did you never come clean? So explain to me yesterday
What of all those things you say?
Damn, we're at it again Welcome to my new place
Take advantage of your space
We're at it again This is not so innocent
This is not what I had planned Why did you never come clean with me?
Why did you never come clean with me?
