

# You Can Be Replaced

[Dot Allison](#)

We took all the laws  
And threw them away  
We're the only ones  
Who saw the call MaydayHeld by the throat  
With backs against the wall  
The bottom looks like up  
When you have got the ballWe are your rivals  
We're the survivors  
I'm not phased  
You can be replacedYou've got the power  
To give your cluelessness a voice  
Saying loads of nothing  
With a lot of noiseWalk down the street  
Resentment in your eyes  
There's something free in us  
That you despiseWe are your rivals  
We're the survivors  
I'm not phased  
You can be replacedWe are your rivals  
We're the survivors  
I'm not phased  
You can be replacedWe are your rivals  
We're the survivors  
I'm not phased  
You can be replacedWe are your rivals  
We're the survivors  
I'm not phased  
You can be replacedWe are your rivals  
We're the survivors  
I'm not phased  
You can be replaced
