

# Beautiful Me

Donnie

Head, shoulders, knees and toes  
Lips, my eyes, my mouth, my nose  
They all go against what  
Society calls beautiful I'm left handed in my right mind  
I'm pleasantly plump a phat dime  
Black as night and a bright night  
As you can see I am beautiful me I was born in the winter, the day after the tenth  
And it's hard to deliver, Scorpio energy's so intense  
Make me wanna hollar, now I know what Marvin meant  
The industry's so cold, give me the things  
To my ancestors you owe, so Head, shoulders knees and toes  
Lips, my eyes, my mouth, my nose  
They all go against what  
Society calls beautiful I'm left handed in my right mind  
I'm pleasantly plump a phat dime  
Black as night and a bright night  
As you can see I am beautiful me Said, American music was built upon my back  
R and B, soul, your rock and roll  
Your blues, your ragtime and your jazz  
Yes, I herald the gospel, funk, hip-hop, techno  
And I'll sing forever in the name of the American Negro I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know Head, shoulders knees and toes  
Lips, my eyes, my mouth, my nose  
They all go against what  
Society calls beautiful Head, shoulders knees and toes  
Lips, my eyes, my mouth, my nose  
They all go against what  
Society calls beautiful Head, shoulders knees and toes  
Lips, my eyes, my mouth, my nose  
They all go against what  
Society calls beautiful I'm left handed in my right mind  
I'm pleasantly plump a phat dime  
Black as night and a bright night  
As you can see I am beautiful me I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know  
I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know  
I'm not a Niger I'm a Negro

When I become a Niger I'll let you know I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know  
I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know  
I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know  
I'm not a Niger I'm a Negro  
When I become a Niger I'll let you know
