Refused

So where do we go from here?
Just about anywhere
Disorientated but alive
Boredom won't get me tonight

Let's bring this city to life, to light - tonight
Let's bring this city to life, tonight - to light

There is no destination
But with a goal in mind
We can all be realistic
Demand the impossible

Let's bring this city to life - to light, tonight
Let's bring this city to life - tonight

Every street is an adventure and every road becomes a trip.
Every turn we take and every decision we don't make,
even the decision we don't make, will bring us into the secrets of their town.
Every corner we turn will lead us, every corner we turn will lead us down the labyrinths,
and every desire that we earn will guide us alive, living, loving & searching.

So where do we go from here?
Just about anywhere
Disorientated but alive
Boredom won't get me tonight
Boredom won't get me tonight
Boredom won't get me tonight
Boredom won't get me tonight
