

One Touch

Sugababes

Mum I found a guy that I really want
I know you say I'm young but he don't wanna hurt me
Never has to try, special kinda guy
I get these funny feelings whenever he's around me One touch of love
That was only to my dear
And I'm never gonna let you go away now Call him what you want, call him what you like
He's always there for me, whenever I feel lonely
Don't know what I'll say, don't know what I'll do
'Cause if you change your mind then I'll go crazy, yeah One touch of love
It was only to my dear
And I'm never gonna let you go away now So much, so much
So much I wanna have you near
And I'm never gonna let you go away now Anytime my friends be chattin' your name
I can't wait to be with you again, no
And every time you call my telephone It's clear to me that I can't let you go, never let go
I can't let you go, never let you go That I can't let you go, never let you go
I can't let you go, never let you go One touch of love
It was only to my dear
And I'm never gonna let you go away now So much, so much
So much I wanna have you near
And I'm never gonna let you go away now One touch of love
It was only to my dear
And I'm never gonna let you go away now So much, so much
So much I wanna have you near
And I'm never gonna let you go away now One touch of love
Never gonna let you go away
Never gonna let you go away now So much, so much
Never gonna let you go away
Never gonna let you go away now One touch of love
Never gonna let you go away
Never gonna let you go away now
