

Big Meanie

LEN

It could be said
You've got a fat head
You're way too mean
A little fucked up it seems It's been so crazy
Too bad and a shame
So sickening and lame
A shitty, motherfuckin' pain It could be bled
Your brains melted dead
A face with no cred
For you and all that is said It could be done
You haven't won
And even my cat hates you
And thinks you are dumb It could be said
You've got a fat head
You're way too mean
A little fucked up it seems It's been so crazy
Too bad and a shame
So sickening and lame
A shitty, motherfuckin' pain
