

# Blue Town

## The Warratahs

Out in your blue town  
there's a river running through,  
flows a different direction every, every day  
I leave a message on my phone,  
I try to hear what you're really saying

Take all the little words,  
and put 'em into a prayer[?]  
Hey a real love mining and real love mining,  
Tell me you going, real love mining,  
Hey love mining, real love mining  
Digging in the sea[?] of your blue town.

What will the weather and the supper be,  
Out in your blue town.  
Now all the little pieces  
Are falling into place.  
I hang the washing on the line  
Trying to make everything clean  
That's always the hardest,  
always the hardest part

Hey a real love mining and real love mining  
Tell me you going uh real love mining,  
Hey love mining uh real love mining  
Digging down in your blue town  
Moon shining on the water  
Everything's just the way that it oughta be.  
Hey, hey

See the message on my phone  
I try to hear what you're really saying  
Put the washing on the line,  
what will the weather and the supper be

I write it down in a letter tonight,  
I write it down in a letter tonight,  
I write it all down in a letter tonight,  
Send it away to your blue town

Hey, (uh)real love mining (uh) real love mining,  
Tell me you going real love mining,  
Hey love mining real love mining,  
Digging down in your blue town.

Your blue town
