She Made My Blood Run Cold

Ike Turner

She made my blood run cold,
sent cold chills all through my soul.

I went to see my doctor,
asked him what was wrong.
He gave me an examination,
I was chilled through my bones.

She made my blood run cold,
sent cold chills all through my soul.

He said your kisses freezes my heart,
causes my blood to stop.
Have icicles hanging from my eyes,
I need heat all around the clock.

She made my blood run cold,
sent cold chills all through my soul.

He checked my blood pressure,
he found that I had none.
He said "Bring me that woman
so she can see what she has done!"

She made my blood run cold,
sent cold chills all through my soul.

She came to the doctors office
and rubbed him on his head.
And before I could give him a warning
he was standing there frozen dead.

She made his blood run cold,
took all the life right out of his soul

(What a chilly woman!)
