

# Feel It Boy

## Beenie Man

Baby girl, oh nah nah  
Ooh Lord, Lord, Lord, Lord  
Are you ready for this? Yeah Whenever I got no money  
She is still my honey  
And there is a reason to be funny  
'Cause, I, I, I said I don't care what you say  
But you can say, girl  
Keep on sayin' your thing, yeah  
And I don't care what you do  
But you can do, girl  
Keep on doin' your thing, yeah And I don't care what you shake  
But you can shake, girl  
You have my head a spin, yeah  
And I don't care what you kiss  
But you can kiss, girl  
You have this brotha a sing That people keep on tellin' me that you are here to stay  
Brother keep on tellin' them that you will go away  
'Cause, wha, two wrongs can't make no right, naw  
Ain't nothin' wrong with a good old fight It's alright if you feel it, boy  
Two can feel this feelin' all around the world  
It's okay if you feel it  
Forget everything and everybody  
Boy, let's just have a party, me and you Gal out a you mouth nuh call me dumb man  
Instead of bringing joy you brought me pure pain  
Now I really know what is the game, game  
Bust you brain, blood for stain Sometime, I really thought you're love was so true  
Cryin' on my shoulder bout dat all too  
Now I really know what just do  
Forget you too, you won your crew People keep on tellin' me your love is here to stay  
Brother keep on tellin' them that you will go away  
'Cause, wha, two wrongs can't make no right  
Ain't nothin' wrong with a good old fight It's alright if you feel it, boy  
Two can feel this feelin' all around the world  
It's okay if you feel it  
Forget everything and everybody  
Boy, let's just have a party, me and you Whenever I got no money  
She is still my honey  
Without any clothes or jewelry, yeah  
She is still my honey But true little cars and luxury, yeah

I almost lose my honey  
Open your heart, girl and let me back in  
And you be my queen and I forever your king  
Yeah 'cause, two wrongs can't make no right  
It's alright if you feel it boy  
Two can feel this feelin' all around the world  
It's okay if you feel it  
Forget everything and everybody  
Boy, let's just have a party, me and you  
Forget everything and everybody  
Boy, let's just have a party, me and you  
Forget everything and everybody  
Boy, let's just have a party, me and you  
Let's have a party now me and you, my baby
