Pulse

Neverwake

My bodies buried with these words
Dig me up, dig me up
I pray my voice could just be heard
But it's not loud enough
This dirt they're feeding
My ears are bleeding
And I can't break the stone
Weighing down on me

Still seeing
Still breathing
Still beating

Screaming from my soul
(My soul)
My pulse in your control
(Control)
You're such a beautiful beast
Your malevolence is disease
Screaming from my soul
(My soul)
My pulse in your control
(Control)
You're such a beautiful beast
Your malevolence is disease

I wander deep inside this sleep
Wake me up, wake me up
No one can see what I can see
Will your light be enough
My voice is straining
My cries are fading
Still I can't feel the pain that you're dealing me

Still seeing
Still breathing
Still beating

Screaming from my soul
(My soul)

My pulse in your control
(Control)
You're such a beautiful beast
Your malevolence is disease
Screaming from my soul
(My soul)
My pulse in your control
(Control)
You're such a beautiful beast
Your malevolence is disease

Still seeing
Still breathing
Still beating

Still beating!

Screaming from my soul
(My soul)
My pulse in your control
(Control)
You're such a beautiful beast
Your malevolence is disease
Screaming from my soul
(My soul)
My pulse in your control
(Control)
You're such a beautiful beast
Your malevolence is... disease!
