

# Recovery

## Jon Wayne and The Pain

Recovery, recovery, recovery, recovery  
People say I need some recovery  
They can't seem to handle my energy  
If you hate me, stand up in front of me  
You can meet my God  
When the sun shines down  
I will always be there  
When you wear the crown  
They will come to defeat you  
Recovery, recovery, recovery  
Stick it to me, fear and ferocity  
I have uncuffed your animosity  
Ain't no doubt there's something inside of me  
That can't be left alone  
When the sun shines down  
I will always be there  
When you wear the crown  
They will come to defeat you  
If you turn back now  
They will make you a believer  
You'll be a face in the crowd  
But you'll never be a leader  
Oh, yeah  
Oh, yeah, oh yeah  
Oh, yeah, oh yeah  
People say I need some recovery  
They can't seem to handle my energy  
If you hate me, stand up in front of me  
You can meet my god, yeah  
When the sun shines down  
I will always be there  
When you wear the crown  
They will come to defeat you  
If you turn back now  
They will make you a believer  
You'll be a face in the crowd  
But you'll never be a leader  
Recovery, recovery, recovery  
Recovery, recovery
