

Marching Drums

Spark Gap

On the inside is a golden place,
Hear, something's playing in here
Common boy, dance the pain,
Feed my disco brain.
My peahead hides a bead,
It's not blood but wine that i bleed.

Rock is insane alchemy,
Do you really want to know,
What's ruling there belowÂ ?
Don't complain you're all the same.
Hopping poodle wants to know,
How a crowd is getting blownÂ ?

You rule my world,
Little drumming monkey toy inside my head,
Rock it, good good boy.
My head will pop like lemon drop.
I wanna fall drop dead and start again,
Another round around the clock.

Wasted peaces, wasted peaces.

Wasted peaces of my smashed brain,
strewed on the linoleum.
Measure the pleasure,
Measure the height of its splashes on the wall.

Rock is insane alchemy,
Do you really want to know,
What's ruling there belowÂ ?
Don't complain you'll try in vain.
Rock is for the lost and broken brains.

You rule my world,
Little drumming monkey toy inside my head,
Rock it, good good boy.
My head will pop like lemon drop.
I wanna fall drop dead and start again,
Another round around the clock.

OoohÂ !

Parasite, parasite you're my best friend.

Let's start it all over again.

Parasite, parasite you're my best friend.

Let's start, start, start it all over again.

You rule my world,

Little drumming monkey toy inside my head,

Rock it, good good boy.

My head will pop like lemon drop.

I wanna fall drop dead and start again,

Another round around the clock.
