The Healing

Artas

Dogs of war are haunting the human flesh
That's not hell, that's the paradise
Adrenaline and instincts take the lead
The beast awakesSucking all my hate
Terminate wrath
Sucking all my hate
Terminate wrathThe bullets rip through the enemies
Terminate wrath
Dead bodies cover shattered ground
Terminate wrathNow die you fucking coward
I'll send you to your gods
Your bones are crushed into pieces
And now you get what you deserveCan you hear the screams for mercy?
Sweet music in your ears
Can you smell the stench of napalm?
This is your chance to killIn times of war death is the healing
Now feel the rage and make your standBloodthirst and the lust to kill
Now surrender the beast in you
You sow the death and harvest flesh
Unchain your rageThey call me insane and murderer
I call them prey and hunt them down
Like the wolf among the sheeps
A god among menSucking all my hate
Terminate wrath
Sucking all my hate
Terminate wrathThe bullets rip through the enemies
Terminate wrath
Dead bodies cover shattered ground
Terminate wrathNow die you fucking coward
I'll send you to your gods
Your bones are crushed into pieces
And now you get what you deserveCan you hear the screams for mercy?
Sweet music in your ears
Can you smell the stench of napalm?
This is your chance to killIn times of war death is the healing
Now feel the rage and make your standRiot...Can you hear the screams for mercy?
Sweet music in your ears
Can you smell the stench of napalm?
This is your chance to killIn times of war death is the healing

Now feel the rage and make your stand
