Endless Flight

Leo Sayer

Keep me steady
Don't rock me all around
Lord, I don't wanna fall down
Understand me
I wish this jet was off the groundLook around you
And tell me what you see
Are you afraid or is it me?
I hope we make it
I hope we don't fall in the seaAnd it's gonna be an endless flight
Until we reach the ground tonight
Yes, it's gonna be an endless flight I know
Like a flyin' bird in the night
The wind is strong but I hope I'm right
And this will be the end of this endless flightMake me happy
Just let me see the light
I hope the runaway path is near
The look the captain gave
Was it confidence or fear?
Oh, was it fear?And it's gonna be an endless flight
Until we reach the ground tonight
Yes, it's gonna be an endless flight I know
Like a flyin' bird in the night
The wind is strong but I hope I'm right
And this will be the end of this endless flightAnd it's gonna be an endless flight
Until we reach the ground tonight
Yes, it's gonna be an endless flight I know
Like a flyin' bird in the night
The wind is strong but I hope I'm right
And this the end of this endless flightYes, it's gonna be an endless flight
Until we reach the ground tonight
Yes, it's gonna be an endless flight I know
Like a flyin' bird in the night
The wind is strong, I know I'm right
And this is the end of this endless flight
