## **Eyesore**

## **New Found Glory**

Forget me not Those weren't your words I'm home haven't you heard the ring? The sound of my voice I know it isn't muchThat's why I say your name When I fall, when I hit the bottom Say your name When I fall, when I hit the bottomGirl, play on The boys will stay even if you're gone Go girl, play on The boys will stay even if you're goneI've missed you Those weren't your words Seeing you became a charm And everyday, I wish I could EverydayI say your name When I fall, when I hit the bottom Say your name When I fall, when I hit the bottomGirl, play on The boys will stay even if you're gone Go girl, play on The boys will stay even if you're goneAnd I say, say your name When I fall I say, say your name When I fall, when I hit the bottom Say your name When I fall, when I hit the bottomGirl, play on The boys will stay even if you're gone
