One Bedroom

Yellowcard

Stay the night
Touch the sky with me
We can live like we have forever
Spend your days
Watch the waves with me
We can love like we are foreverOoh ooh, you're the light from the Moon tonight
Ooh ooh, you're the history I will write
Ooh ooh, you're the last stop and I arrive
Ooh ooh, you're the one for the rest of timeWhat good could I do
In a life without you?
What more could I lose
Than what I found in you?
In you
In youWhen you're gone
You belong with me
'Cause you know that we are forever
Take your time
To realize, you'll see
We will always be here foreverOoh ooh, you're the light from the Moon tonight
Ooh ooh, you're the history I will write
Ooh ooh, you're the last stop and I arrive
Ooh ooh, you're the one for the rest of timeWhat good could I do
In a life without you?
What more could I lose
Than what I found in you?
What words could I use
To say all this to you?
What verse could I choose
To give myself to you?
To you
To you
To you
To youI wanna love with you
And live, yeah
Live like here forever
I wanna love with you
And live, yeah
Live like here forever
I wanna love with you

And live, yeah
Live like here forever
I wanna love with you
And live, yeah
Live like here forever
