

Bottle of Love

The Triffids

I'm a little man
But I need more love than the next man
I'm a starving man
I take all that I can
Oh, from the bottle of love I'm a broken heel
But it takes more than that to make me cry
Really I'm as hard as steel
I just got something caught in my eye
Oh, from the bottle of love I'll fall for anything stronger than myself
I will heal physician, heal myself (Hush me up, and rock me slow)
Well nothing happens here
Not too much gets done
But you get to like it
You get to like the drinking and the swimming around
Oh, passing around the bottle of love
