

Attak / Reload

KMFDM

Watching you
Floodlights seal your fate
Shallow breath
Quick pulse
Navigate
All this waiting, waiting
Contemplating you Pure adrenaline emergency
You've been searching for signs now the truth has
Arrived
State control
Attack/reload Theoretical illusory
Volunteer to the ultimate system of life
Brace the blow
Attack/reload Molecular breakdown mutate below
Cause and effect react to explode
Static rush
Gravitational pull of delirium Close my eyes
Hear what you say
Got the guns
The power to take
Bomb the one
The one that slipped away Temper tantrum you communicate
It's your nature to be cold
Automatic how you operate
System failure
Brain control Attack/reload
