The Breathing Method

The Get Up Kids

Made a grave mistake. An all too commonplace. Not the first time back again. It's obvious the risks. outweight the benefits should have used our heads couldn't happen to me. No. There's no safe hiding place in thinking you're immune you're not immune. Watch advantages pass. Abrasive, difficult regret. I was. Can you conceive that i hate you. I can barely make the rent. You are. That a word as strong as hate can describe the way i feel. We were. And in the end there is another. Nothing. A product of you. But you came back fine. You came back. Nothing at all. I won't hide, or turn back. I'll take responsibility. I won't let mine be a mistake.
