Liberty & Justice

Bathory

Youngsters prostitute themselves
It's all part of the game
Wwalking up amd down the pavements
That bears both stars and namesAutomatic fire
Sacred amendment guarantees
To kill or be killed is yuor own business
So fire as you pleaseLiberty & Justice
Crack the substitute for new highs
The hooker and the gunman
Barely more than a fucking childAnd up the fucking hills
Silicon mummies by their pools
Sips their fucking drinks
And smile over their preserved youthsLiberty & JusticeI pledge allegiance in God we trust
Down the hood and up Wall Street
From the church and trough the school rooms
The decieve is but complete
Mr. Smith and family sits still
And pray over their fucking apple pie
And down the ghetto the law enforcement
Accidentally guns down another childLiberty & Justice
