

Straight To My Face

Mikaila

Did me wrong and baby, that's okay
But you didn't have to lie to me
If there's anything you have to say
Then tell me straight to my face? That was when you made your big mistake
Thinkin' I would wanna play your games
If there's anything you have to say
Just tell me straight to my face? Looked into your eyes and I knew from the start
Baby, I could tell something you're hiding
Some friends of mine told me they saw you in the park
With someone else Is there something you're holding from me?
I don't really need more proof
But I wanna hear it from you
So, I'm asking for the last time, tell me, baby Did me wrong and baby, that's okay
But you didn't have to lie to me
If there's anything you have to say
Then tell me straight to my face? That was when you made your big mistake
Thinkin' I would wanna play your games
If there's anything you have to say
Just tell me straight to my face? You cheated and now you can't look me in the eyes
Couldn't keep it real and it hurts
Did you really think I was too dumb to realize?
I know you far too well Boy, you risked it all and now you lost
If you only could have told me
Than it wouldn't have to be this way
So why can't you just tell me straight to my face? Did me wrong and baby, that's okay
But you didn't have to lie to me
If there's anything you have to say
Then tell me straight to my face? That was when you made your big mistake
Thinkin' I would wanna play your games
If there's anything you have to say
Just tell me straight to my face? Tears me apart, so hard to leave
But how can love go on without honesty?
You have my heart, you should have been straight
And just tell me straight to my face Did me wrong and baby, that's okay
But you didn't have to lie to me
If there's anything you have to say
Then tell me straight to my face? That was when you made your big mistake
Thinkin' I would wanna play your games
If there's anything you have to say

Just tell me straight to my face? Did me wrong and baby, that's okay
But you didn't have to lie to me
If there's anything you have to say
Then tell me straight to my face? That was when you made your big mistake
Thinkin' I would wanna play your games
If there's anything you have to say
Just tell me straight to my face? Just tell me straight to my face
Straight to my face
