

# Just As Long As I Have You

Don Williams

Well, I love to wander  
On a sandy shore  
And I love to wander  
Down the streets of towns  
I've never been before  
Take me somewhere out of reach  
Lie in unfamiliar sheets  
And hear the ocean roar  
Ask for more I could not do  
Just as long as you're there too  
Just as long as I have you  
I'll go anywhere  
Just as long as you're there too  
I don't really care  
I'll go anywhere you are  
'Cause with you is where I belong  
I've just got to have you  
To make my life complete  
I've just got to have you  
There to be a part of everything I see

In the windows I walk past  
In the mirror in the morning  
In my photographs  
In the candlelite cafes  
Let me always see your face  
Oh, it really doesn't matter  
Just where the road leads  
To the top of a mountain  
Or down to the sea  
Just as long as I have you  
I'll go anywhere  
Just as long as you're there too  
I don't really care  
I'll go anywhere you are  
'Cause with you is where I belong  
Just as long as I have you  
Just as long as I have you
