

# Bridge Over Troubled Water

**Josh Groban & Brian McKnight**

When you're weary, you're feeling small  
When tears are in your eyes, I will dry them all  
    I'm on your side  
    When times get rough  
    And friends just can't be found  
    Like a bridge over troubled water  
        I will lay me down  
        When you're down and out  
        When you're on the street  
        When evening falls so hard  
            I will comfort you  
    I'll take your part (I'll take your part)  
        When darkness comes  
        And pain is all around  
    Like a bridge over troubled water  
        I will lay me down  
    Like a bridge over troubled water  
    I will lay me down(Oh, like a bridge)  
        (Over troubled, troubled water)  
        Ooh, I will lay me down  
            (Like a bridge)  
    Oh, like a bridge over troubled  
        (Troubled water)  
        Sail on silver girl  
            Sail on by  
    Your time has come to shine  
    And all your dreams are on their way  
    See how they shine (See how they shine)  
        And if you need a friend  
        I'm sailing right behind  
    Like a bridge over troubled water  
        I will ease your mind  
        Like a bridge over troubled water  
    I will ease your mindLike a bridge over troubled water  
        I will ease your mind
