

# Motion and Heart

## Orchestral Manoeuvres In the Dark

Everything is as it should be  
From motion to heart to the scenery  
From make, to amend, to the new Paris trend  
You said that you learned, then it happens again  
What's so hard that refuses to be  
Fortunes gained, lost on the street I couldn't believe this would happen again  
The things you said and I called you my friend  
Each time we tried, you failed as before  
From laissez-faire to the knock on the door But everything is as it should be  
When you give your heart to me  
From mo-mo-mo-mo-motion and heart  
To heart, heart, heart, heart, heart of gold  
From mo-mo-mo-mo-motion and heart  
To heart, heart, heart, heart, heart of gold
