Waterfall

Andreas Johnson

You say time will set us free
We sure could use a new direction
Our friends are lost and so are we
We're left on hold, there's no connectionDarling, ooh, well, it takes a lot of love to let it go
To free your mind, your body and soul
And it takes a lot of faith to let it show
Together we rise, together we flow down the waterfallSo we leave the world behind
Dream away from all the fiction
Within this space, we're growing wild
Tonight, we shine from holy frictionOh, my pearl, well, it takes a lot of love to let it go
To free your mind, your body and soul
And it takes a lot of faith to let it show
Together we rise, together we flow down the waterfall
Hold on, hold tight, waterfall, be strong, be lightOoh, it takes a lot of love to let it go
To free your mind, your body and soul
And it takes a lot of faith to let it show
Together we rise, together we flow down the waterfallNow you ain't heavy, now you ain't heavy, my pearl
Down the waterfall
Now you ain't heavy, now you ain't heavy, baby girl
Down the waterfall
