Big Plans

Have Fun

Gabriella, she's a continental girl
She wants everything, she wants to rule the world
Enough is not enough, she's never satisfied
There are no limits and no mountain is too high
It doesn't matter what I say, she's gonna do it anyway
She's got big plans, she's got big plans
I know you think you know but you don't understand
She's got big plans
She's not the kind of girl you give a valentine
And all your sentiments are just a waste of time
'Cause Gabriella doesn't want to lose control
And fall in love again because it hurts, you know
She doesn't hear a word I say, she's gonna have it her own way, yeah
She's got big plans, she's got big plans
I know you think you know but you don't understand
She's got big plans

(Defeat me)
Defeat me
(Completely)
Completely
Don't keep me hangin' on
(So spare me)
So spare me
(No mercy)
No mercy
(Ahh)
'Cause that's not what I want
She doesn't hear a word I say, she's gonna have it her own way, yeah
She's got big plans, she's got big plans
I know you think you know but you don't understand
She's got big plans, she's got big plans, she's got big plans
