I Still Have You

Charlie Wilson

(Verse)
What good is a million dollars and a home
Without someone to share and give
What good is a bed if you're sleeping all alone
I'm so happy 'cause with you I'm never lonely
(Pre-Chorus)
Even if it's not the wind in winter
Never see another white christmas
We would go through it together
Baby you can count on that
If I'm a star, I start hiding
And we couldn't make a wish again
Even if the sun stop shining
I wouldn't care because
(Chorus)
I'd still have you baby
And you have me too baby
I'd still have you baby
And you have me too ye
I'll be here as long as I still have you
(Verse)
What good is a fancy car with no better goal
If you're just driving down an empty road
One thing for sure is my arms was made to hold
And these lips were made for you, so baby kiss me
(Pre-Chorus)
Even if it's not the wind in winter
Never see another white christmas
We would go through it together
Baby you can count on that
If I'm a star, I start hiding

And we couldn't make a wish again
Even if the sun stop shining
I wouldn't care because
(Chorus)
I'd still have you baby
And you have me too baby
I'd still have you baby

And you have me too ye
I'll be here as long as I still have you
(Bridge)
Things may come and things may go
But I still have you
Seasons change I lose some friends
But I still have you
When my world is upside down
I still have you
Said I still have you
And you got me too
(Pre-Chorus)
Even if it's not the wind in winter
Never see another white christmas
We would go through it together
Baby you can count on that
If I'm a star, I start hiding
And we couldn't make a wish again
Even if the sun stop shining
I wouldn't care because
(Chorus) x2
I'd still have you baby
And you have me too baby
I'd still have you baby
And you have me too ye
I'll be here as long as I still have you
