

# Answer In the Sky

## Elton John

Well, they say that it's a fact  
If you watch the sky at night  
And if you stare into the darkness  
You might see celestial light  
And if your heart is empty  
And there's no hope inside  
There's a chance you'll find  
An answer in the sky  
Well, they say that it's a shame  
If you have nothing to believe  
And if you can't hold on to something  
You might as well die where you sleep  
You don't need a prayer  
And there's no price to ask why  
Sometimes you'll find  
An answer in the sky  
And it's all so much bigger than it seems  
And it all overwhelms us now and then  
And I'm banking on a chance that we believe  
That good can still control the hearts of men  
Sometimes you'll find  
An answer in the sky  
And it's all so much bigger than it seems  
And it all overwhelms us now and then  
And I'm banking on a chance that we believe  
That good can still control the hearts of men  
This life's a long old road  
We shouldn't have to walk alone  
But if you find the right companion  
You won't feel so worn out when you've grown  
All life is precious  
And every day's a prize  
And sometimes you'll find  
An answer in the sky  
All life is precious  
And every day's a prize  
And sometimes you'll find  
An answer in the sky  
And sometimes you'll find  
An answer in the sky  
And sometimes you'll find  
An answer in the sky
