

# Nitrous Gas

## Frightened Rabbit

Advisory - the following lyrics contain explicit language:

Shut down the gospel singers and turn up the old heart-breakers  
I'm dying to tell you that I'm dying here  
Throw up the sickly joy and the swell of the sweet self-loathing  
I'm just dying to be unhappy again Oh, love won't grow  
Oh, it will build my home And if happiness won't come to me  
Hand me the nitrous gas  
Leave the acute warm heartedness  
Go where the joyless bastard is  
He's dying to bring you down with him  
Suck in the bright red major key  
Spit out the blue minor misery  
I'm dying to bring you down with me Ooohhh oh oh, ooohhh oh oh, ooohhh oh oh... And if happiness won't  
come to me  
Hand me the nitrous gas  
You can keep all of your oxygen  
Hand me the nitrous gas  
And if happiness won't live with me  
Think I can live with that  
You can keep all of your oxygen  
Hand me the nitrous gas
