Destroyer

Static-x

Take it down with a steam hammer
Pack it hard, lead shot in your mood shooter
Choose your poison, have a drink
With your painkiller, take us down
Wreck a party like it don't matter
Smash it up then get down, broken beat maker
If I could, I'd trade it all for an automator
Here it comes
Oh, you do it again
You do it again, destroyer
Oh, you do it again
You do it again, destroyer
Cosmo sucker, bad breath crier
Bad timing robo crap, you're a great liar
Overdrive, deep dirt
On your **** highway, black eyed
Fuzzy filter, hollow head wobble
Take a trip, get a grip before you get in trouble
And you wonder why you're called
'The Destroyer', stroyer, stereo
Oh, you do it again
You do it again, destroyer
It's coming back again
Oh, you do it again
You do it again, destroyer
Oh, you do it again
You do it again, destroyer
It's coming back again
Oh, you do it again
You do it again, destroyer
Oh, you do it again
You do it again, destroyer
It's coming back again
Oh, you do it again
You do it again, destroyer
Take it down with a steam hammer
Pack it hard, lead shot in your mood shooter
Choose your poison, have a drink
With your painkiller, take us down
