Love Makes You

Samantha Fox

What you are inside you carry with you always
And everything you do is reflection of you
No matter where you are, no matter what you do
I will be there to show you, I care in the shadow of the nightOnly love makes you what you are
And what you are is everything to me
Baby find a star and any star will lead you back to me
Love makes you what you are, you're everything to meWhatever you have done and whatever you may do
Love has made you what you are and it's love I feel for youNo matter where you go, I will always come to you
I'll be your friend right to the end in the shadow of the night
Baby find a star and any star will lead you back to me
Love makes you what you are, you're everything to mePeople wish for many things, things they'll never be
But I won't wish for anything as long as you stay by meLove makes you what you are, you're everything to me
Baby find a star and any star will lead you back to me
Love makes you what you are, you're everything to me
Love makes you what you are, you're everything to me[unverified]
