

Fairy Tale High

Donna Summer

On a fairy tale high
Don't you believe that all your dreams can come true
The fairy tale world inside can bring it to you
You just have to wish, and you'll take off and fly
On a fairy tale high, fairy tale oh, high
Fairy tale high, fairy tale high
On a fairy tale high
Just look around you, the dark clouds are far

You stand on your tiptoes, and reach for a star
As stardust comes sprinkling, it will brighten your eyes
On a fairy tale high, fairy tale high
Fairy tale high, fairy tale high
Fairy tale high, fairy tale high
On a fairy tale high, feeling higher and higher
On a fairy tale high, feeling higher and higher
On a fairy tale high, feeling higher and higher
