

How Do You Love

Mark Owen

Do you love? Yeah
Can you tell me how it feels?
Is your heart running so fast it becomes still?
Is it true you breathe in butterflies?
Is it true you blow out stars?
When you love, yeah, does your mind open?
Do you see who you are
When the walls that you build start to fall to the ground
Why do you never come down?
Boys and girls share crystal champagne kisses
Just to taste the rain
Racing cars and chasing satellites
We crash alone again
How do you love love?
How do you love love?
With your love, yeah
Can you catch your real reflection?
See your shell aching
To keep the pearl inside
I have heard about your butterflies
I thought I saw your stars
Are you love when the ground gives in
But you're finding yourself
In a space where it's all that you know
Magnified to your size
Why do you never come down?

Boys and girls share crystal champagne kisses
Just to taste the rain
Racing cars and chasing satellites
We crash alone again
How do you love love?
How do you love love?
Coming on like like a wave
I'll be a slave
For all that you say that I will be
It is you I adore
Is it you I adore?
Boys and girls share crystal champagne kisses

Just to taste the rain
Racing cars and chasing satellites
We crash alone again
How do you love love?
(Love love)
How do you love love?
(Love love)
With you I can get happily wasted
Happily wasted [unverified]
With you I see the answers
With you I'll go insane
