

# Broken

## Airbag

Broken Hold me tight and don't look away  
Ask me how I feel and how I make it through the day  
The distance between us is the closeness you want to keep  
Is there nothing more to give  
Is this the end of it all  
If I had a chance to take it all back  
Would you leave me anyway  
And if I told you I could change again  
Would you still be here with me  
If I could change again  
Would you leave me anyway  
If I could change again  
There's a house down by the sea  
Where we used to live  
Now it's turned to dust  
If I had a chance to take it all back  
Would you leave me anyway  
And if I told you I could change again  
Would you still be here with me  
If I could change again
