

Defeated No More (feat. Edward Macfarlane)

Disclosure

Defeated no more
I just feel I let you go
Been cheated, I've been fooled
But you're my heart and glow goneGotta let this fire keep burning
'Cause I can't seem to let this show
Instead of running I keep it slow
'Cause I won't let this take controlGot to get it, got got to get it
Got to get it, got got to get it on
Got to get it, got got to get it
Got to get it, got got to get it onDefeated no more
I still watched you take it all
I'm healed and I'm reborn
But my heart's shaking off the coldGotta let this fire keep burning
'Cause I can't seem to let this show
Instead of running I keep it slow
'Cause I won't let this take controlGot to get it, got got to get it
Got to get it, got got to get it on
Got to get it, got got to get it
Got to get it, got got to get it onI can feel it working from the last you know
I can feel it working, but can you?
I can feel it working from the last you know
I know you think you're hurting but can you love?
I can feel it working from the last you know
I know you feel it working, but can you?
I can feel it working from the last you know
I know you feel it
Can you love?
Can you love?
Can you love?
Can you love?Defeated no more
I feel your shadow disappear
I've faded and I fought
But now I know I make the rulesGotta let this fire keep burning
'Cause I can't seem to let this show
Instead of running I keep it slow
'Cause I won't let this take controlGot to get it, got got to get it
Got to get it, got got to get it on
Got to get it, got got to get it
Got to get it, got got to get it onGot to get it, got got to get it

Got to get it, got got to get it on
Got to get it, got got to get it
Got to get it, got got to get it onGot to get it, got got to get it
Got to get it, got got to get it on
Got to get it, got got to get it
Got to get it, got got to get it onI can feel it working from the last you know
I know you feel it working, but can you?
I can feel it working from the last you know
I know you think you're hurting but can you love?
I can feel it working from the last you know
I know you feel it working, but can you?
I can feel it working from the last you know
I know you feel it
Can you love?
Can you love?
Can you love?
Can you love?
Can you love?
Can you love?
Can you love?
Can you love?
