

# We Should Always Be Together

**Billy Goodrum**

I don't wanna go  
I wanna stay with you forever  
Hold me in your arms  
Let me feel your beating heart  
We should always be togetherI don't want to leave you  
Even for a minute  
I couldn't stand to live my life  
A single day without you in it  
They say that time heals all wounds  
But I can't wait for later  
Anyway, I'm afraid if I walk away  
This time it could be fatalI don't want you to be  
Just another memory  
That keeps me awake at night  
Leaves me tryin' to hold on to  
Tryin' to get you back into my lifeI don't wanna go  
You have to drag me off in chains  
Don't leave me in the dark  
Don't let me drift too far  
You know I couldn't stand the pain
