# Lover, Lover

## James Iha

Lover darling
When you hold my hand
It's all I'll have until tomorrow
Lover darling

When you hold my life
If you it's right
Until tomorrow
Lover lover come to me

If you need sympathy
Lover lover won't you speak
I can barely hear you breathe
Lover angel

The stars at night
In a burned-out sky
Until tomorrow
Lover angel

Got your wings to fly
And the wind inside
'cause you're still there
Lover lover come to me

If you need sympathy
Lover lover won't you speak
I can barely hear you breathe
On the way to the sun

And there's a new world just begun
I can feel I'm getting older
I can feel the years wash over
You're the only one I love

Lover lover come to me
If you need sympathy
Lover lover won't you speak
I can hardly hear

If you say that you love me
And if your heart's one and only
If you live with me for just one day
Until tomorrow

Until tomorrow
Lover lover come to me
If you need sympathy
