

Worry

Widespread Panic

Worry 'bout my worries
Lately all, all I seem to do
Worry 'bout my worries
Lately all I seem to do One day I'm gonna get better, babe
Then I'm gonna take a little time to worry
All about you Seen some bad moves of a lifetime
You're moving back to trouble me
Bad moves of a lifetime
Moving back to trouble me Will consequence keep me waiting
Or this time, will my anger set me free? Little kitty cat, hanging on the wall
Clocks are roaming about
Like to keep my feet warm
But the fire keeps going out I've been waiting on good times for so long
I hope them good times ain't long gone Big, black car, keep on driving by
Twice a day, stopping at my door
Winter girls dressed for springtime
I know they're trouble for sure I've been waiting on good times for so long
Hope them good times aren't long gone Worry, all about my worries
Lately all I seem to do
Worry, worry 'bout my worries
Lately all I seem to do Won't know
Gonna get better, babe
Then I'm gonna take a little time to worry All about you
All about you
All about you
All about you
