Strangest Feeling

Roman Holliday

And your star was there
You light up for me
You didn't want me to see
You left quietly (silently)
Now just a million miles
they won't hide tonight
And the stars align
Like the way to love tonight.
Chorus:
I've been having these strangest feeling
That you walked out on me one evening
Walk the plank and meet the sharks
Let them cut and eat my heart
I've been having these strangest feeling
That you walked out on me one evening
Walk the plank and meet the sharks
Let them cut and eat my heart
A single tear just dropped into the ocean of your hands
You left me open now i'm hoping that you try to understand
Water's calling for me, there's no way i can pretend
That you were coming back to get me
now the moon would lead me in
so destined, over in an instant
you're the echo uou were here only yesterday
Where you going? Always thought you'd stay
make that fire let it burn the sky away

Chorus:
I've been having these strangest feeling
That you walked out on me one evening
Walk the plank and meet the sharks
Let them cut and eat my heart
I've been having these strangest feeling
That you walked out on me one evening
Walk the plank and meet the sharks
Let them cut and eat my heart
I have ... I emphasize
Face that I turned to hide
closer i get your .. you were here only yesterday

And i know i try to forget those nights, all those nights
You know I've tried.
[Chorus:]I've been having these strangest feeling
That you walked out on me one evening
Walk the plank and meet the sharks
Let them cut and eat my heart
I've been having these strangest feeling
That you walked out on me one evening
Walk the plank and meet the sharks
Let them cut and eat my heart
Let them cut and eat my heart
