Education

Mirah

And I received an education all the while
I've come to an understanding
When you say you love me sometimes
That's all you can giveLove might just be an economy
But I don't believe in property
We don't own nothin'
We don't owe nothin'And you wondered why I was so terrified
The night of our proclamation
Now do you understand
The risk we'd undertakenWas a deer runnin' free
Til it's last breath found your window
We killed and drove on indecently
Oh how you screamed
