Bridges

Broods

Gave you a minute
When you needed an hour
Just to push it aside
Instead of leaving behind you
If any word that I said
Could have made you forget
Iâ€™d have given you them all
But it was all, in your head

Now weâ€™re burning all the bridges down
Watching it go up in flames I want to build it up again
And weâ€™re burning all the bridges down
'cause it was sink or swim all the way down, down, down

And weâ€™re burning all the bridges
Burning all the bridges down
And weâ€™re burning all the bridges
Burning all the bridges down

If I didnâ€™t give up
Would you still say you needed me?
'cause I walked right into it
guess I made it to easy
If any word that you said
Couldâ€™ve made me forget what Iâ€™d give up off the floor
'cause this is all, in my head

Now weâ€™re burning all the bridges down
Watching it go up in flames I want to build it up again

And weâ€™re burning all the bridges
Burning all the bridges down
And weâ€™re burning all the bridges
Burning all the bridges down

Can we forget about it?
Can we forget?
Can we forget about it?
Can we forget?

Burning all the bridges
Burning all the bridges down
And weâ€™re burning all the bridges
Burning all the bridges down
