Marines

Pullovers

Inclination for the rock 'n' roll war
Under the flag of peace and law
Your native country to set it free
In the air, on land and on the seaFor their honor and their golden crown
Swing the judgments glory hammer down
The patriot within their valiant heart
Keep 'em hungry for the liberty loveHatred just a tool, the aggressors to control
Into the jungle's depth, into the desert storm
Caught between legions of hate
Caught beneath malefic eyes of fateSeems that we are doomed to drown your hopes
Marching to the destiny, no attitudes to lie
Don't want to leave that battlefield without a sign
Engaged to the rifle by my sideMarines
They're fighting for you
Marines
They're dying for you
Marines
Keep your honor clean
MarinesYou are the chosen one securing the world
Universal soldier to the bone
And for my brothers you'll get what you deserve
Down the bloody road to warMarines
They're fighting for you
Marines
They're dying for youMarines
Keep your honor clean
Marines
Out in the killin' fields
MarinesMarines
They're fighting for you
Marines
They're dying for you
Marines
Keep your honor clean
MarinesYou hear the mine clicking under your feet
You know you have to go
You hear the trigger of a foreign gun
To bury all your hopeEver pave the way for endless peace
Self-sacrificing 'til you have the world to leave

For the common people, honest generation
Just you can stop the human disintegrationMarines
They're fighting for you
Marines
They're dying for youMarines
Keep your honor clean
Marines
Out in the killin' fields
MarinesMarines
Marines
