

Downtown

Orson

Is your situation working out?
Well, I heard your playstation would let you down
So come downtown, hangin' around, alright Did you disappoint the chairman of the board?
And now your day's getting longer than they did before?
You should come downtown, hangin' around, alright 'Cause there is always room for one more
All together now, yeah We know you've been such a good boy
But now the day is done
So are you waiting to get older to have a little fun?
You should come downtown, hangin' around, alright Do you think that it would kill you to take a holiday?
Oh yeah, make a call, tell a lie
Whatever it takes to get to
Downtown, hangin' around, alright, alright, yeah There is always room for one more
All together now Forget about the boss and the boss committee
Everyone you know is comin' down the city now
Why you wanna sit out until the weekend?
The gang's all here, there's only one that's missing now
Yeah, yeah There is always room for one more
All together now, oh yeah, to get to Downtown, hangin' around, alright
Downtown, hangin' around, alright
Downtown, hangin' around, alright
Wanna come downtown, hangin' around, alright
Alright, alright Downtown, hangin' around, alright
Downtown, hangin' around, alright
Downtown, hangin' around, alright
Downtown, hangin' around, alright
