Morally Justified

Allegiance

When life reaches a point when it cannot be sustained
Physical impossiblity an obstacle too great
To play the hands of God to induce death
Is it committing murder? Or putting pain at rest?Your will to survive
Your will to be alive
Will to let die
Morally justifiedImage your the fighter but can't win the race
Arificial life support prolongs your living state
Imagine you're the dreamer but can't reach your goal
Artifical hope implanted in your soulYour will to survive
Your will to be alive
Will to let die
Morally justifiedPain and agony
What can and cannot be
Torment andsuffering
Please don't induce death
Just get it over with
Prolonged by questioningPain inflicts the conscience on thos who make the decision
This is the choice of life or death peace of pain to be given
Depending on your line of thought will determine on what side
The argument of wrong or right the choice you must decideYour will to survive
Your will to be alive
Will to let die
Morally justified
