Can't Look Back

[Steve Lukather](#)

Im holding on to the dreams I had when I was young,
I guess I never saw that things were wrong,
The game has changed and where once was fact ain't where it's at,
I never really felt like I belonged
I was thinking how we might have been
If things had stayed the same
Nothing would've made me more confused than that
And I gotta get back on my feet
Chorus:
Im driving down the road about to lose my mind
Gotta keep movin and I cant look back
The past is the past and the future is so unsure
Well there's a blue sky coming now I'm feeling better
The black skies are gone, but never say never
Ohhh, ohh, yeah.
You know you cant look back
I turned and reached for things I know I should not never do
Those painful choices turned my life into a laughing fool
Gotta grab the chance I have to turn it all around
So much to live for nothing left to lose
I gotta .myself.
[Guitar solo]
[Chorus 2x]
