

# Young Ones (feat. Jeremy Fowler)

## Johnny Third

They say you're only young once  
Young ones but we live for we die for  
We live for forever

They say you're only young once  
Young ones but we live for we live for  
We live for forever

I'll meet you at the hideout  
Were we can change again  
I'll tell you all my secrets  
Wearing courage like a second skin

The kids are all dying  
We're dying to believe again  
Run through the open streets  
And take what is needed

They say you're only young once  
Young ones but we live for we die for  
We live for forever  
They say you're only young once  
Young ones but we live for we live for  
We live for forever

We can dream all night  
Till the sun rises  
They say you're only young once  
Young ones but we live for we die for  
We live for forever

I'll meet you at the airport  
We know that we can touch the sky  
Dancing in the night ice  
Were skating on clouds of fire

The kids are outside  
Are trying to believe again  
Run through the open streets

And take what is needed

Open up the skies  
See the heavens clearer  
I could just change your mind  
But know where we came from

we'll set out hearts on fire  
The dreamers are all here  
We could change your mind

They say you're only young once  
Young ones but we live for we die for  
We live for forever  
They say you're only young once  
Young ones but we live for we live for  
We live for forever

We can dream all night  
Till the sun rises  
They say you're only young once  
Young ones but we live for we die for  
We live for forever
