Here's To Us

Lit

There's a Polaroid, one in black and white
With us against the world, burning through those summer nights
The future in our hands, the stars lit in our eyes
We were too young, didn't know, yeah, didn't realize
It was our time, yeah, it was our time
So here's to us,
May we never ever change so much
We forget about how good this was
Oooh may our lives be long,
Still remember where we all came from
Here's to life, here's to love, here's to us
Here's to us
I brought your old guitar, I knew you'd want to hear
The songs we used to sing out in the backyard, drinking beer.
And now it's hard to understand why you're lying in that bed
Hooked up to machines, I wish it was me instead.
Play it the last time, don't say it's the last time

Now here's to us,
May we never ever change so much
We forget about how good this was
Oooh may our lives be long,
Still remember where we all came from
Here's to life, here's to love, here's to us
We never want to kind of wave the white flag
The hard times made us strong
Yeah, we're gonna keep on keeping on
Here's to us
Here's to us,
May we never ever change so much
We forget about how good this was
Oooh may our lives be long,
Still remember where we all came from
Here's to life, here's to love, here's to us
Here's to us
Here's to us
