

# Abyssal Gates

[Krisiun](#)

Enter the gates of pure abominations  
Of abyssic chambers with infinite dimensions  
Frozen winds, distant shine of stars  
Distorted reflections of the slaughtered and damned  
Following circles of malignant essence Fallen angels feasting through seas of black blood  
Awaiting for the summoning of infamous command  
As the blackest sun solstice breeds  
Blinding shine of cataclysms  
Massive merciless genocide Mayhem spells of pure chaos evocation  
Supreme conjuration of satanic rites  
Cleanse the race of damnation  
In a stormy blast, dragged, reaped flesh  
Destroy the doomed corpse with lust Release its soul upon the blackest bounds  
Infernal hordes of hades enraged  
Fierce beasts ride for decay  
Destroy the legions of the dethroned emperor  
Whip its souls upon the underworld  
Of majesty and damnation Impureness turns into pureness  
Beyond the gates upon the infernal circles  
Drowned and damned where etter flows  
And moribund awaits along the putrid waters of Acheron Torn corpses dragged and crushed  
Into storms of grinding flesh  
Whirlwinds of carrion and putrid stench  
Evil gods of warfare and revenge rejoice
